

CrossPaws

An estimated six to eight million dogs each year are surrendered to shelters in the US and approximately four million dogs—about one every eight seconds—are put down. Often these dogs are the offspring of cherished family pets. Many of the dogs that died as a result of pet overpopulation could have made wonderful pets.

CrossPaws is committed to aiding the cause! As loving dog owners, we believe we can help those who cannot help themselves. It doesn't matter how small the effort might be because every bit counts.

With every purchase you make from the CrossPaws website, CrossPaws will donate a portion of the sale

to charities that have made it their mission to reduce and eventually eliminate the overcrowding and euthanasia of the dog population in US Shelters such as *"Dogs on Death Row"*, *"SPCA"*, *"Fixit"*, *"Humane Society"* and *"Pinups for Pitbulls"*.
